NOTE: When you see an “M” at the end of a Suffix, this means that the unit was “Special” somehow.

EXAMPLE: MEM-2403 (a special T170 manufactured using a modified BOM when made in 2014)

NOTE: When a model has been modified within the suffix year and is NOT retrofittable, a letter is added to the Suffix, beginning alphabetically.

EXAMPLE: MUA-283 (a MB50 manufactured in 2017 with a model change from the original at the beginning of the year.)
