

SMARTER WAYS TO WORK™

GS SERIES - PRO

Ground Preparation
Attachment For Skid Steers

The GS Series Pro Model is a multi-use hydraulic skid steer attachment engineered to clear terrain, de-compact the toughest hardpan, and level soil in preparation for seedbed planting. Scarifiers work in combination with the wheels, finish and leveling rakes to prepare the soil up to 6" deep. Its design and durability make it one of the most versatile attachments you will ever own. It is ideal for clearing vegetation. Plus, with its ingenious design, is capable of handling all of the ground preparation finesse work around concrete edges and walkways, leaving a smooth finished seedbed.

Key User Benefits:

Speed – Makes short work of clearing terrain, de-compacting, and leveling ground.

Ease of Use – Operator friendly when used in conjunction with the skid steer “float” functionality in both forward and reverse. Clear site lines make edge working a breeze. The operator has complete control of the unit to do the finest detail work. With all of the functionality built into this revolutionary attachment, the tedious and back breaking task of hand work is eliminated.

Toughness – Everything from the frame, to the foam filled tires is engineered to take a pounding and continue to perform. With no complicated and expensive hydraulically powered rotating parts, the GS Pro Model is the toughest tool on the jobsite.

Maintenance – The ingenious design of the GS Pro Model makes maintenance fast and simple. Plus many of the components are common throughout the unit requiring minimal inventory.

Results – Perfectly graded ground with soil de-compacted up to 6" deep

Save Time, Space and Money – When one tool can clear brush, de-compact the soil, and leave a smooth and level seedbed, you save space on the trailer, save time by not switching implements, and save money by owning and maintaining just the one tool that can do it all.

As the inventor of the HydroSeeder®, we know a thing or two about soil preparation. Our ground preparation tools are designed to provide the best results and ensure that your planting efforts are rewarded with lush, thick, green lawns.

Features and Benefits

- Provides the optimal soil environment for germination and developing a healthy, deep root system
- Hydraulics make adjusting scarifier depth fast and easy
- Clear site lines for edge work
- Forged steel, cast iron, AR steel and welded construction for durability
- Wear components bolted or pinned in place for fast and easy replacement
- All-in-one tool saves you space, time and money

Use it for:

- Ground prep for seeding or sod with far fewer labor hours
- Clearing Grass, Brush, Small Trees and more
- Gravel Driveway Leveling and Resurfacing
- Grubbing
- Rock Clearing

Applications

Landscape Contractors

Residential Construction

Excavation

Driveway / Sidewalk Contractors

Gravel Road Maintenance

PRO FEATURES

- Hydraulic Scarifiers
- Leveling Rake Gauge
- Wheels

GS Series - Pro Model

Ground Preparation Attachment with hydraulics, gauge wheels and leveling rake

Technical Specifications

GS Series Pro Model Skid Steer Attachment

Vehicle	Pro Model - GSH75
Mode of Transportation	Skid Steer
Recommened HP. Range	40 - 100
Skid Steer Mount	Universal
Hydraulic Ports Needed	1 Set
Tool Dimensions	
Overall	90 in. Wide x 43 in. Deep x 30 in. High
Raking Width	89 in.
Grading Width	66 in.
Scarifying Width	79 in.
# of Scarifiers	10
Hydraulic Scarifiers	Yes
Scarifier Spacing	8 - 10 in.
Scarifying Depth	0 - 6 in.
Tool Construction	
Frame	Heavy Duty I-Beam & Angle Iron welded construction
Finish Rake	3/4 in. Abrasion Resistant (AR) Steel
Scarifying Tip	Bolt-on Cast Iron
Wheels	16 in. Foam Filled
Color	Black
Weight	1,300 lbs.
