

# The Hose That Won't Weigh You Down.

**FINN's all-new EcoStrike hose is ready to get to work!**

Built for the most demanding applications, the EcoStrike Hose is here. It's construction and design give you a lighter weight, smoother pull, and more maneuverability and flexibility than the traditional option. Ask about it today!

**FINN**  
SMARTER WAYS TO WORK™

**EcoSTRIKE**

# Feel the Power, Not the Weight.

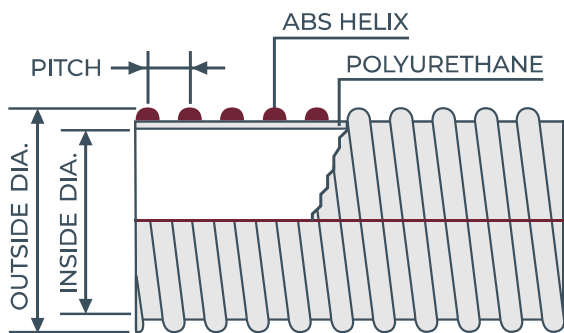

The high-performance blower hose that works as hard as you do!

## Built for This.

The EcoStrike® Hose is ideal for mulch and material blowing applications. The bi-directional design offers more maneuverability than ever with built-in, abrasion-resistant technology, and an ABS helix that delivers increased flexibility and easier drag.

## Made for FINN.

Available through the FINN dealer network, it works on any current AND older FINN machines running 4" and 5" hose. For more information about FINN's all-new EcoStrike Hose, please visit [finndealers.com](http://finndealers.com) to find your local Finn Dealer.

EcoStrike features a clear sidewall to see material inside and a smooth bore for increased precision. EcoStrike can operate within a temperature range from -40°F to 200°F

### Available Sizes

	4 inches	5 inches
OD (in.)	4.465	5.579
Pitch (in.)	0.496	0.787
Min. Bend Radius (72°F, in.)	6	6
Working Pressure (72°F, PSI)	30	26
Vacuum Rating (72°F, In Hg)	22	18
Weight (lbs/ft)	0.93	1
Standard Length (ft)	100	100

NOTE: The hard PVC that is commonly used in lightweight hose design is not as strong nor flexible as a hose that uses an ABS helix. EcoStrike's ABS helix provides the same level of performance weighs less, and is more flexible than any comparable PVC options. These factors make it a versatile and economical hose choice for many applications.
